

Trans-Pacific Partnership Country Webinar Series: Commercial Opportunities in the Pacific Rim

The International Trade Administration (ITA) will host a series of webinars to help inform U.S. businesses about commercial opportunities in leading and emerging markets in the Pacific Rim. Each webinar will focus on the benefits of the Trans-Pacific Partnership (TPP) trade agreement for American workers and businesses in one or more of the 11 other TPP countries. These sessions will help U.S. businesses of all sizes better understand how TPP will increase their competitiveness and the growing commercial opportunities for Made-in-America products in some of the largest and most dynamic countries in the Asia Pacific region.

In May, the Department of Commerce released “Trans-Pacific Partnership Opportunities by Market,” the latest [report](#) in the ITA’s series of [fact sheets](#) outlining TPP opportunities by state, sector, and market.

Register:

To register for each webinar, see below.

Webinar Schedule:
